Applicant's election of Group I including claims 1-78 in the reply filed on 02-23-2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 79-83 directed to invention non-elected without traverse above. Accordingly, claims 79-83 have been cancelled.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In The Claims

Claim 7, line 1, "any" should be deleted.

Claim 29, line 1, "any of claims" should be changed to -- claim --.

Claims 79-83 have been cancelled.

A telephone call was made to Jamie H. Rose on 03-20-2006 to correct the typographical errors above, but did not result in an examiner's amendment being made.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose a mass spectrometer and/or method, which includes means for varying an electric field applied across at least a portion of an electric field region such that ions passed through the electric field region and having substantially

different mass to charge ratios arrive at an extraction or acceleration region of a time of flight mass analyzer at substantially the same time as recited in claims 1 and 74.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
